

UNTIE ARIZONA MIDWIVES HANDS

November 5th, 2015

In a historic action and after years of unsuccessful attempts to gain the support and cooperation of the Arizona Department of Health Services, the midwives of the Arizona Association of Midwives filed legal action in superior court against the state demanding AzDHS cease increasing regulatory burden on and persecution of the midwives of AZ.

Untie AZ Midwives Hands
on Facebook

The lawsuit seeks to do these things...

- Stop the illegal investigation into midwives charts that contain private health information
- Stop the aggressive enforcement of new rules that illegally reduced the midwives' scope of practice
- Relieve midwives of the increased administrative burden
- Stop the enforcement of unconstitutional midwifery laws that violate the right to refuse vaginal exams, STI testing, and medical treatment

who has the power to change AZ midwifery regulation right now?

Tell them to Untie Your Midwives Hands!
